

Appendix E

SEJPA Contractor Safety Orientation Acknowledgement

I, _____, acknowledge that I have completed and understand the SEJPA Contractor Safety Orientation. I agree to comply accordingly with all policies and procedures outlined in the training.

Contractor Safety Orientation is intended to provide an overview of some of the many requirements, rules and practices used at SEJPA facilities to protect workers from hazards. It is not intended to provide or replace your employer's training related to your profession or trade. It is intended to help you safely access the site and enter into many, not all, plant areas. Certain areas may be off-limits to contractors and visitors depending on the scope of work, training and experience level. ALWAYS check with your supervision prior to starting work assignments and before entering into new areas or those with unfamiliar hazards. The information contained within this orientation is subject to change without notice.

Note: This briefing does not constitute training for LOTO, confined space entry, scaffold access, fall protection, respiratory protection, plant equipment operation, firefighting, or other work activities.

Topics included:
